1. Setting up your Digital Video Baby Monitor

A. Connecting the power supply for the Baby Unit

- Insert the DC plug of the power adapter into the DC socket on the back of the Baby Unit.
- Connect the other end of the power adapter to mains power.
- The Green power indicator lights when the baby unit is on.

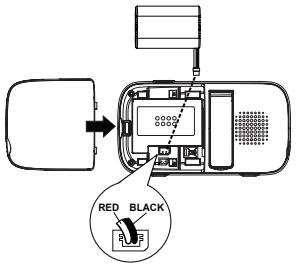

Note:

Only use the power adapter (5VDC, 600mA) provided.

⚠ WARNING:

Strangulation hazard. Children have STRANGLED on cords. Keep this cord out of the reach of children (more than 1 metre away). Never use extension cords with AC Adapters. Only use the AC Adapters provided.

B. Installing battery and connecting Parent Unit to power

- A rechargeable battery pack (Ni-MH, 800mAh) is supplied and should be installed and charged, so that the Parent Unit can be moved without losing the link and picture from the Baby Unit(s). We recommend charging the parent unit for at least 4 hours before first use, and when the Parent Unit indicates the battery is low.
- Remove the battery compartment cover.
- Insert the plug of the battery pack into the socket inside the battery compartment, and fit the battery pack into the compartment.
- Replace the battery compartment cover, and pull out the desktop stand. (see Section D)

C. Connecting the Power Supply for the Parent Unit

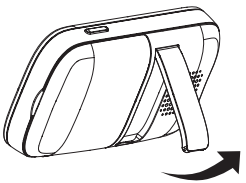

- Insert the DC plug of the power adapter into the DC socket on the side of the Parent Unit.
- Connect the other end of the power adapter to mains power.
- Press and hold the power button ⏻ to turn the Parent Unit On.

Note:

Only use the power adapter (5VDC, 600mA) and battery pack provided.
The Parent Unit can work with the power adapter connected but without a battery pack installed.
When the Baby Unit and Parent Unit are both turned on, the Parent Unit should show the colour image from the Baby Unit camera, but if the room is dark the image will be in black and white and with a ★☽ icon showing, due to the infra-red illumination by the Baby Unit.

D. Desktop Stand of the Parent Unit

- The parent unit comes with a desktop stand attached to the back of the parent unit.
- To place the parent unit on a desk, simply pull out the stand, as shown.

Note:

Place the parent unit on a flat, even surface.
